To whomsoever it may concern.

This is to certify that Rajdeep Das has effortlessly contributed to our program GirlScript Summer of Code 2021 as a Web Developer in the organizing team. They have worked diligently with all the members of the team to render the smooth functioning of the program.

In the role of web developers, it was ensured that the official portal of the program is well-maintained, user-friendly, and regularly updated. Their efficiency in maintaining and executing has brought about huge applause from all the users.

Their dedication proved to be a great boon to the program as they have a high calibre in programming languages and modern technologies. Their management and execution were excellent.

We are very impressed by their work ethics and strongly recommend them for roles that require developing websites and turning an idea into a fully functional user optimized website.

We wish them the best in their future endeavours.
